	Summary Manufactured Home

The following is a summary of items required at the inspection. **This is meant to be a guide and is not a complete list of code requirements.** Permit holder is responsible for meeting all requirements listed here and/or all applicable code and manufacturer's instructions. Requests for inspections are made after all work has been completed, and the home is open and ready for inspection. The permit card and address must be posted.

1. All entrance doors must have code standard steps leading to them.
2. Entrance doors swinging out shall have a minimum 3' x 3' landing outside the door (not applicable for screen or storm door).
3. All steps are to be constructed in accordance with the North Carolina Regulations for Manufactured Homes section 3.11.
4. A deck greater than 36 square feet requires a separate building permit.
5. For new homes, the manufacturer's installation instructions must be in a conspicuous location. Foundation systems and tie-downs must be installed in accordance with the installation instructions for new homes. Installation of relocated homes may be in accordance with the North Carolina Regulations for Manufactured Homes.
6. In the absence of specific instruction from the manufacturer, an engineer's letter is required for the set up when more than 25% of the homes main support piers are higher than 3'-0" above grade measured at the bottom of the I-Beam, reference North Carolina Regulations for Manufactured Homes section 3.7.7.
7. Any required Soil bearing tests must be performed and the results posted in a conspicuous place to determine pier spacing.
8. All footer blocks shall be covered with earth.
9. If a poured footing is required per manufacturer specifications, an inspection will be required prior to pouring of footing.
10. An engineer's letter is required when screw anchors are placed in concrete.
11. Underneath the home is to be graded to prevent water collection.
12. A GFCI convenience receptacle is to be located adjacent to outside mechanical equipment.
13. The electrical conduit is to be supported to code.
14. The water supply is to be installed in accordance with North Carolina Regulations for Manufactured Homes section 3.13.6.
15. All hose bibs are to have means for back flow prevention.
16. The sewer line is to be run with correct fall and the connection to septic tank exposed for the inspection.
17. All mechanical equipment must be installed with a proper over current protection device.
18. All mechanical equipment located outside is to be level and on a suitable pad.
19. The ductwork run under the home is to be supported every 4'-0" and is to be greater than 0'-4" above grade.
20. Any replacement mechanical equipment must be approved for use in manufactured housing.
21. A re-inspection fee may be charged for all additional inspection. Re-inspection fees must be paid before or at the time of re-inspection by check, money order or cash. Re-inspection fees are not collected by field inspectors and must be paid in the office at 172 Clement Street in Mocksville. All checks and money orders must be made payable to the County of Davie.
22. Do not install skirting until an under chassis inspection has been performed and passed. Skirting must be in place at the final inspections.
